## MATERIALS & MAINTENANCE

Statues and pedestal: Everdure silicon bronze  
Chains and pedestal interior: welded steel

Maintenance will consist of simply washing the monument and applying a fresh coat of wax, ideally twice yearly, spring and fall.

East and west sides of the pedestal contain bronze portraits, sculpted in relief, which honor those African American citizens of Virginia who have contributed to the civil rights history of Virginia and the United States.

*(alternate figures than those shown  
may be represented, if desired)*
